Altaché™ Clad

Sustainably sourced, Australian made innovations

Timber is a sustainable, renewable, carbon-positive resource that can reduce the carbon footprint of your project. Designing with timber enhances the sustainability of your space by capitalising on natural materials that can be re-purposed in the future.

At Modinex, we pride ourselves on being environmentally responsible. Our local base gives us the advantage of collaborating closely with architects and designers. By understanding your needs, we can create sustainable design solutions that are compliant, fit-for-purpose and brimming with natural beauty.

Our manufacturing plants utilise natural timber plantations that are PEFC certified, ensuring our design collections that are sourced from sustainably managed forests. We also use environmentally sustainable, ultra-low VOC coatings to protect our environment for the generations to come.

Streamlined, contemporary and sophisticated

Turn heads with Altaché™ Clad from Modinex. This superbly stylish profile combines sleek lines of anodised aluminium with the natural warmth of Western Red Cedar. Make A modern Statement with Altaché™.

Features and Benefits

Versatility — Two-tone aesthetic transforms spaces with dynamic visual language

Easy to Install — Concealed fixings create uninterrupted lines through precision-engineered aluminium extrusion

Flexibility — Multiple profile and batten sizes for adaptive design

Performance — Superior thermal insulation ideal for a variety of climate conditions

Sustainable — Responsibly sourced PEFC certified timber combined with 100% recyclable aluminium profiles

How to specify

Download REVIT files, installation instructions, product care and technical information at modinex.com.au

Choose your shape

PROFILE CODE	DIMENSION
PR-AC-42X21	42mmW x 21mmD
PR-AC-42X40	42mmW x 40mmD
PR-AC-97X18	97mmW x 18mmD
PR-AC-147X18	147mmW x 18mmD

Profiles

42mm wide
21mm thickness available

97mm wide
18mm thickness available

42mm wide
40mm thickness available

147mm wide
18mm thickness available

Timber Species

All our ranges of timber species are available in set length and random length. Please contact our projects team for more information.

— SOFTWOOD

Western Red Cedar, Alaskan Cedar & Hemlock are the only suitable species for 9mm thick profiles. All Softwood species can be used for 12mm thickness or greater. For external applications, please use 18mm thick profiles or greater.

Western Red Cedar

Plantation
100% PEFC Certified
Greentag Certified

Hemlock

Plantation
100% PEFC Certified
Suitable for indoor and
