Cera Façade

Ceramic coating: Lasting colour + low maintenance

Cera Façade's ceramic coating resists fading and discoloration to sustain your home's style and quality for longer.

Testing shows that even over 30 years of exposure to the elements, colour loss is barely detectable.

Best of all, the coating can virtually maintain itself, using the natural environment to remove accumulated dirt.

Cera Façade is external cladding with difference

Striking original, style that brings your walls to life combined with maintenance-free living and durability that lasts the distance.

Its ceramic-coated panels protect against the elements while supporting healthy, comfortable living. Like all Modinex products, Cera Façade delivers top quality, design freedom and real value – along with surprisingly low maintenance for decades to come.

Features and Benefits

Application — Suitable for internal and external use

Thickness — Available in 16mm thickness

Sealer — If used for flooring, benchtops, splashbacks, or externally a natural-look sealer coat is to be applied to protect from staining

Fire rating — Ground 1 internally and BAL29 externally

Custom colours are available on request for indoor use
