Austratus Linear - Timber &
Austratus Linear DFM (Direct Fix) - Timber

New thinking. New simplicity.

When it comes to inspiring spaces, nothing makes an impact quite like an architectural timber ceiling, wall or screen.

Colour, warmth, tone and texture – timber has a unique, sophisticated appeal.

However, the associated lead times, as well as the need for expert-installation skills, has traditionally rendered genuine timber statements out of reach for many commercial and residential projects ...until now.

Introducing Austratus, a new product innovation from architectural timber specialists, Modinex.

The simplicity and convenience of the Austratus patented system

Our patented fitting system allows continuous lengths of timber to be simply and easily clipped into a suspended ceiling. It can also be screwed directly onto existing walls and ceilings.

Fit-out companies, builders and architects will agree, Austratus makes it easy to achieve brilliant results. How?

Design and Performance

Acoustic — Up to 0.9NCR acoustic rated insulation available

Fire rating — Varies by timber species. All Modinex timber species can achieve Group 3 for internal applications (Group 1 when treated with Fireshield). Modinex hardwood species are suitable for external applications up to BAL29. Softwood species do not meet the material requirements for BAL ratings

Sustainability — Profiles are available in a large range of sustainable timber species or in aluminium (Green or Super Green to reduce CO2 emission by 50-75%)

Application — Suitable for out of weather or external use

Profiles

30mm Fin series

30mm, 40mm, 60mm, 90mm, 140mm and 190mm depth available

30mm V Fin
60mm depth available

Dome series
40mm, 60mm and 90mm depth available

Flat series

29mm, 40mm, 60mm and 90mm wide available

40mm Fin series

40mm, 60mm, 90mm, 140mm and 190mm depth available

42mm Peak series
40mm, 60mm and 90mm wide available

30mm Concave
60mm wide available

Dowel series

32mm, 40mm and 60mm width available

Fixing System

Austratus Linear

*Ideal for when the battens are suspended, or acoustic insulation is required.

Austratus Linear DFM (Direct Fix)

*Ideal when the battens are not suspension or acoustic insulation is needed. No visible rails.

Choose your finish

See Modinex website for full range of colour and coating options.

Timber Species

All our ranges of timber species are available in set length and random length. Please contact our projects team for more information.

— SOFTWOOD

Western Red Cedar, Alaskan Cedar & Hemlock are the only suitable species for 9mm thick profiles. All Softwood species can be used for 12mm thickness or greater. For external applications, please use 18mm thick profiles or greater.

Western Red Cedar

Plantation
100% PEFC Certified
Greentag Certified

Western Red Cedar - Tight Knot

Plantation
100% PEFC Certified

Hemlock

Plantation
100% PEFC Certified
Suitable for indoor and
out-of weather use only

Hemlock - Thermally Modified

Plantation
100% PEFC Certified

Alaskan Cedar

Plantation
100% PEFC Certified

Accoya

Plantation
100% PEFC Certified

— HARDWOOD

Hardwood species can be used for 15mm thickness or greater for out of weather applications and 18mm thickness or greater for external use.

American Oak

PEFC Certification is available

Blackbutt

FSC Certification is available

Spotted Gum

FSC Certification is available

Ironbark

FSC Certification is available

Southern Spotted

PEFC Certification is available

French Oak

PEFC Certification is available

Create stunning wow factor
with flexibility of style, texture,
colour, shape and species.

Talk with our design team today about how to maximise the grandeur of your space. Our extensive product range puts a wealth of inspiration at your fingertips. We can even collaborate with you to innovate custom solutions, specifically designed to bring your vision to life and elevate your space with exclusive designer appeal.
