Weatherboard

Sustainably sourced, Australian made innovations

Timber is a sustainable, renewable, carbon-positive resource that can reduce the carbon footprint of your project. Designing with timber enhances the sustainability of your space by capitalising on natural materials that can be re-purposed in the future.

At Modinex, we pride ourselves on being environmentally responsible. Our local base gives us the advantage of collaborating closely with architects and designers. By understanding your needs, we can create sustainable design solutions that are compliant, fit-for-purpose and brimming with natural beauty.

Our manufacturing plants utilise natural timber plantations that are PEFC certified, ensuring our design collections that are sourced from sustainably managed forests. We also use environmentally sustainable, ultra-low VOC coatings to protect our environment for the generations to come.

A natural all-rounder with supreme versatility

Cedar Sales' Weatherboard in Knotty Grade Western Red Cedar offers versatility and timeless appeal. This traditional profile (also known as Beveled Siding /or Clapboard) is cost-efficient and suitable for a wide range of applications. Choose from smooth or rustic finishes.

Design and Performance

Sustainable timber — Manufactured from 100% plantation PEFC Certified Western Red Cedar Tight Knot species

Fire rating — All Modinex timber species can achieve Group 3 for internal applications (Group 1 when treated with Fireshield). Softwood species do not meet the material requirements for BAL ratings

Application — Suitable for external use

Installation — Simple cost-effective installation

How to specify

Download REVIT files, installation instructions, product care and technical information at [modinex.com.au](https://www.modinex.com.au)

Choose your shape

PROFILE CODE	DIMENSION
PR-WB-WRC-110X18-STK-B	110mmW x 18mmD
PR-WB-WRC-160X18-STK-B	160mmW x 19mmD

Profiles

130mm wide (110 cover)
18mm thickness available

180mm wide (160 cover)
18mm thickness available

Choose your finish

See Modinex website for full range of colour and coating options.

Timber Species

All our ranges of timber species are available in set length and random length. Please contact our projects team for more information.

— SOFTWOOD

Western Red Cedar, Alaskan Cedar & Hemlock are the only suitable species for 9mm thick profiles. All Softwood species can be used for 12mm thickness or greater. For external applications, please use 18mm thick profiles or greater.

Timber Finishes

Through our bespoke in-house manufacturing capabilities, our collection of standard finishes can be customised to meet your design intent. Below is an example of our range of timber finishes available.

Band Sawn

Timber Coatings

Modinex offers a range of standard and custom coating to meet our client's design requirements, whilst offering the best protection to our beautiful timber collections. All our coatings at Modinex are ultra-low VOC or VOC-free coatings. Please note some profiles are not available in all timber species.

Penetrating Oil Coatings

Penetrating oils can be used for both internal and external conditions. These oils penetrate the cellular structure of the timber giving it greater protection against UV and weathering. If you are looking for a natural Patina finish, we can apply our Mist or Patina coatings to achieve a natural from installation. Penetrating oil achieve a natural matt finish.
