Alu Batten

Genius resides within its simplicity

Alu Batten is a versatile architectural facade system suitable for use in residential commercial and industrial environments. Its genius resides within its simplicity.

Whether horizontally or vertically aligned, with its clean lines and contemporary look Alu Batten will bring a sophisticated aesthetic impression to any architectural environment.

Creativity

With a wide range of wood Grain and Powder Coating finishes with varying size options available. Alu Batten allows designers to realize their creative vision and bring their creations to life.

In the past such freedom could only be achieved with apprehension and inconsistency due to the nature of custom manufacturing.

With Alu Batten's standard size and modularity allows the supply of an accurate and consistent architectural batten system.

Materials

Alu Batten architectural battens are extruded from 6060 T5 premium grade aluminium alloy. High corrosion resistance and weatherability perfect for commercial applications.

Design and Performance

Compliance — Sea Salt Spray certified

Fire rating — AS1530.1 non-combustible

Durability — 15-year colour retention warranty for timber grain, 25-year colour retention warranty for solid colour, 25-year film integrity warranty
